**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **SHAKE WELL BEFORE USING.**

To be used for treatment of hot weather and temperate military field clothing and mosquito netting only. Make all applications outdoors. **DO NOT TREAT UNIFORM CAP.**

For protection against mosquitoes and ticks select an outdoor area protected from the wind. spray outer surfaces of clothing (while not being worn) and mosquito netting with a slow sweeping motion to lightly moisten the surface of the fabric. Treat the clothing for a minimum of 30 seconds on each side and allow 2 hours (4 hours under humid conditions) to dry prior to being worn. Hold can at a distance of 6 to 8 inches from the object being treated. Treatment should moisten the surface of the fabric enough to cause a slight color change. Use approximately 1/2 of this container to treat one complete field uniform. Use remainder on mosquito netting.

Treat the entire outside surface of clothing with special attention to sock, trouser cuffs, and shirt cuffs. Pant cuffs should be worn inside the socks or footwear to ensure full protection against ticks and chiggers. This item must be used in conjunction with the standard issue repellent approved for application to exposed skin areas to achieve maximum protection from mosquitoes. Follow standard field uniform laundering procedures weekly. Reapply after six weeks and sixth laundering.

**DISPOSAL**

Replace cap, wrap container in several layers of newspaper. Discard in trash. Do not incinerate or puncture. In field situations bury the container.
