TEMP_UN_4915

UN

ACTIVITY : ELM --- Computer Based (CD ROM)

SCHEDULED START: Apr-01-2004

SCHEDULED COMPLETION: Jun-30-2004

ACTUAL COMPLETION:

The 2004 ATSDR ToxProfiles CD-ROM is being beta tested. It is expected to be released in August 2004.

ATSDR ToxProfiles 2004 CD ROM

The toxicological profiles on CD ROM, make toxicological information more accessible and convenient for health care workers, toxicologists, occupational health physicians, public health personnel, communities, and ATSDR's environmental health partners. The 2004 will be enhanced with new search features and include updated and finalized profiles. Copies of ATSDR ToxProfiles 2004 CD ROMs will be produced and distributed to the personnel contained in the mailkey provided by DOD.
